ABOUT ME

I am a game developer and a 3rd-year senior computer engineering student at Çankaya University. I am interested game development, game deseign and computer programming. I have participated in various game jams in the last couple of years and made video games from scratch both with teams and independently. I want to work at a company that has clear goals and a motivating vision.

Extracurricular activities

• The current president of the Çankaya University IEEE Communication Society

• The founding co-chairman of the CyberBees community (the cyber security community of Çankaya University)

WORK EXPERIENCE

[08/2021 – 09/2021]
